

Portsmouth Team Building

Portsmouth Team Building offers fun and exciting corporate team building events and activities for company meetings at most locations in New England.

We offer both indoor and outdoor team building events.

Crazy World Cup Games – The event will consist of about a dozen various activities in which teams will be competing for points. At the end of the designated time, points will be tallied and winners will be chosen. This event can be held indoors or outdoors.

Amazing Scavenger Hunt – The mission is to locate specific locations throughout a given area using a handheld GPS unit. Then perform collaborative tasks and document with photos. This is not your typical scavenger hunt. (Courses in Manchester, Concord, Portsmouth, Portland)

Bicycle Building Charity Event – Teams must solve a variety of puzzles and challenges in exchange for bicycle parts and tools. After bikes are completed and inspected, they will be donated to families in need.

Stuffed Animal Charity Event – Same idea as the bicycle building, except teams are earning animal parts and accessories. Completed animals are donated to police and firefighters to keep in their cars/trucks to comfort children during difficult times.

Escape the Conference Room – This is a fun and interactive event that can take place in any conference room. Teams need to work together to solve mystery puzzles to escape. The puzzles are very tricky, so communication and collaboration are important.

iMovie Trailer – Teams will be given Apple iPads and required to write, direct, and act in their own movie trailer. Typically teams will need to incorporate one of their company products into their trailer.

Salsa and Sangria – Teams will need to work together to earn their ingredients. Using these ingredients, they will create the best salsa for the judges. Points will be awarded based on flavor, creative, and presentation.

The Marshmallow Challenge – This event has been conducted by tens of thousands of people in every continent. Teams need to build the tallest structure with a marshmallow at the top.
